

FINANCIAL AND COMMERCIAL.

Friday, August 7, 6 P. M.  
Money was generally offered to the leading stock commission houses to-day at 6 per cent, and several firms obtained all they wanted at 5. There was some shifting of loans at one time; but no one who had good collateral found difficulty in supplying himself at two P. M. at 6 per cent. Until either merchandise or stocks become very much more active than they are at present there can be no advance in the rate of interest. Money is pouring into Wall street from all parts of the country, and the absorption of money by the conversion of currency into five-twenty is inadequate to consume the profits of dealers, contractors, manufacturers and merchants.

Gold was 127 1/2 a % this morning and 126 1/2 at five P. M. Exchange sold at 140 a 140 1/2, these being about the extreme rates. There is very little business in gold. For the time speculation in the staple seems to have died out. If we take Charleston, or suffer a substantial reverse, speculation will revive in Wall street will increase. Meanwhile there is hardly any trade in bullion except for Custom House purposes or export.

Business on the Stock Exchange this morning was not active, as might have been expected. Yesterday's holiday and the approaching Sunday have naturally operated to thin out the crowd of speculators, and people are likely to wait till Monday to renew their operations. The course of prices was irregular at the first board. Harlem rose 3 per cent, Prairie du Chien 2, Illinois Central 1/2, Pacific, Galena and Fort Wayne were steady; while on the other hand New York Central fell 2, Erie preferred 3/4, Reading 3/4, Southern old 1/2, guaranteed 1, Pittsburg 3, Rock Island 1/2, and Toledo 1/2. The sales were not large, and there appeared to be no pressure of stocks for sale; but on the other hand there was no rush to buy. Most of the sales were reported to be for bear account, and many of the purchases for account of shrewd operators who always wait for a dull day to buy. In governments and State stocks the business done was very limited indeed. At the close of the board the market was rather irregular; but there appeared to be a slight increase in the orders to buy. Central, however, was done as low as 128 1/2, which seems low in comparison with Hudson River and Harlem. At the one P. M. call there was an increase of buyers, and prices were 1/4 a % per cent better all round. The offerings of the bears were eagerly taken. In the afternoon there was again a downward turn on most of the list. Harlem improved to 141 1/2, and Galena, Prairie du Chien and Pittsburg were steady; but Erie fell off 1/2, Central 1/2, Erie preferred 1/2, Rock Island 1/2, and so on throughout the list. A large proportion of the sales were supposed to be on bear account; the commission brokers appeared to be picking up a good deal of stock at the decline. At the four P. M. call the market was steadier, but dull. The following were the closing quotations of the day:—

The Boston Commercial Bulletin says:—

An order for 500,000 dollars each, for the National Bank of Greece, at Athens, has just been completed by the American Bank Note Company, New York. This bank formerly had its notes engraved and printed in London. The same company has just delivered to the government of the United States of Columbia, at Bogota, South America, a full set of Treasury notes and coupons of various denominations, and they are now engaged in engraving plates for the issue of a new bank, with a capital of \$200,000, established at Lima, in Peru. In addition to this foreign work, the bank is now engaged in engraving plates for the governments of Costa Rica, Nicaragua, Cuba, Nova Scotia and New Brunswick. These were formerly made in England, but the superiority of American engraving is drawing all this kind of work to this country.

The importations of dry goods at the port of New York for the week ending August 6, 1863, were as follows:—

Barings Bros. say, in their circular, of American notes:—

Those of the federal government and of the various states continue to be neglected; but rather an active business has been transacted in railroad securities.
